## Data Scientist | Analytics Engineer

[in linkedin.com/in/tieukhoimai](https://www.linkedin.com/in/tieukhoimai) [github.com/tieukhoimai](https://github.com/tieukhoimai)  
+84 984843920 [@ tieukhoimai@gmail.com](mailto:tieukhoimai@gmail.com)  
Ho Chi Minh City, Vietnam  
Female | Born 1998 | Vietnamese

I hold an M.Sc. in Data Science from the University of Verona, with international experience through an Erasmus exchange at the University of Oslo and a six-month research internship at SINTEF Digital. At SINTEF, I contributed to the design and implementation of multi-agent architectures for manufacturing Digital Twin systems. Previously, I spent four years working as a Data Analyst/Engineer in Vietnam on large-scale IoT products, including ADAS radar systems at Bosch and WearOS smartwatch platforms at Fossil Group. I have hands-on experience with analytics engineering, BI tools, CI/CD pipelines, and cloud deployment on GCP and AWS.

## EDUCATION

|           |                                                                                                                          |
|-----------|--------------------------------------------------------------------------------------------------------------------------|
| 2023-2025 | M.Sc. in Data Science, <a href="#">University of Verona</a> (CGPA 108/110)                                               |
| 2024-2025 | Erasmus Program, <a href="#">University of Oslo</a>                                                                      |
| 2017-2021 | B.Sc. in Mathematics, <a href="#">University of Science, VNUHCM</a> (CGPA 8.02/10 - Thesis Grade: 9.5/10)                |
| 2016-2020 | B.B.A. in Business Administration, <a href="#">Ho Chi Minh City Open University</a> (CGPA 3.40/4.0 - Ranked 4th overall) |

## WORK EXPERIENCE

|                      |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                            |

COMMUNITY PROJECTS

PERSONAL BLOG2023 - PRESENT

[tieukhoimai.me/insights](#) [github.com/tieukhoimai/mia-blog-v3](#)

Beyond my professional work, I am dedicated to building and sharing knowledge with communities through my website, where I showcase my projects, ideas, and resources. In total, my website has over 10k+ views and 3.5k+ active users, with a series about Database - Data Engineering attracting 1.5k+ users and Study with Me notes having over 500 users.

MAPME - A DEDICATED INITIATIVES, AND ORGANIZATIONS TO SHAPE SUSTAINABLE SOLUTIONS2024

[mapme.asia](#)

I've been contributing to Mapme as a data scientist, where I develop knowledge-driven maps that integrate satellite data, infrastructure maps, and local insights to promote sustainable development and enhance climate resilience in the Mekong Delta.
